

# Border 2012

## U.S. – Mexico Environmental Program

### Biennial Implementation Report

# BACKGROUND

- ❖ In accordance with the Border 2012 framework, this report summarizes the status of projects and activities with the aim of promoting transparency and public participation through timely and accessible information.
- ❖ This first biennial report makes data on the implementation of the program's goals and objectives available to the public and to partners of the program.
- ❖ We are confident that this report confirms the advances that have been achieved, while acknowledging the future challenges we face jointly to attain the Border 2012 goal *"to protect the environment and public health in the U.S.-Mexico border region, consistent with the principles of sustainable development."*
